

Is your outdated yeast risking your plant's profitability?

Break through limitations with Innova[®] Fit

Innova[®] Fit, the first advanced non-GM yeast, delivers more ethanol yield in challenging conditions than conventional yeasts in the industry. With Innova[®] Fit, you can convert more sugars to ethanol, push through high ethanol concentrations and temperature excursions, and have trust that your plant will finish fermentations more consistently.

1st

industry changing advancement for non-GM yeast in 10+ years

Up to

2%

ethanol yield increase

Ferments up to

36%

high dry solids
